

Pig and Sheep Hoof Dehairing Machine

Go to the shell machine.

Product code	105
Specification code	1051
Primary category	Sheep and Goat Farming Equipment
Secondary category	Sheep and Goat Restraint and Handling Equipment

This hoof shell-removal machine is designed for routine use in processing and slaughter areas. Its practical structure is intended for reliable day-to-day operation.

Features

- Material: stainless steel.
- Automatic operation helps reduce repetitive manual work.
- Corrosion-resistant construction is suited to humid livestock environments.
- The design is easy to clean and maintain.

Advantages

- Simple maintenance helps lower routine service requirements.
- Stable construction supports reliable routine operation.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.

Description

Suitable for routine livestock-farm operations. Check the product, installation points and connecting components before use. Operate according to the selected model and farm procedure, clean the equipment regularly, and replace worn parts when necessary.
