

Piglet Heating Pad

Plastic steel incubator + plastic electro-heatboard

Product code	159
Specification code	1594
Primary category	Environmental Control Equipment
Secondary category	Heating and Insulation Equipment

This piglet heating plate is designed for young-animal warming and thermal management in pig farms, nursery houses. It uses reinforced plastic-steel composite construction or components suited to routine farm use.

Features

- Material: reinforced plastic-steel composite.
- Purpose-built structure for routine use as a piglet heating plate.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

Advantages

- Improves day-to-day operating efficiency.
- Suitable for routine use in commercial and large-scale livestock operations.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.

Description

Suitable for young-animal warming and thermal management in pig farms. Confirm that the power supply and environmental conditions match the selected model before use. Keep electrical parts dry, maintain adequate ventilation around the equipment, and inspect the unit regularly.
