This boar heat-detection cart is designed for routine use in pig farms, pig houses, sow houses. It uses stainless steel construction or components suited to routine farm use.

## Features

- Dimensions: 150cm.
- Material: stainless steel.
- Integrated wheels facilitate movement and repositioning.
- The surrounding rail structure helps keep animals positioned during operation.

## Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Corrosion resistance supports long service in humid farm environments.

## Description

Suitable for routine use in pig houses, sow houses, breeding houses. Keep all product-contact parts clean and hygienic before use, and operate according to standard breeding or artificial-insemination procedures. Clean, disinfect or replace components as appropriate after use and store them in a clean, dry condition. Final dimensions, configuration and operating limits should be confirmed against the actual ordered product.
