

Dilator Pliers

Plastic steel extension clamps.

Product code	252
Specification code	5131
Primary category	Pig Farming Equipment
Secondary category	Pig Farm Tools

This veterinary dilator forceps is designed for routine handling of pigs, cattle, sheep. It uses reinforced plastic-steel composite construction or components suited to routine farm use.

Features

- Material: reinforced plastic-steel composite.
- Purpose-built structure for routine use as a veterinary dilator forceps.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Easy cleaning supports better hygiene management.
- Simple maintenance helps lower routine service requirements.

Description

Suitable for disinfection and hygiene management for pigs, cattle, sheep. Keep all product-contact parts clean and hygienic before use, and operate according to standard breeding or artificial-insemination procedures. Clean, disinfect or replace components as appropriate after use and store them in a clean, dry condition. Final dimensions, configuration and operating limits should be confirmed against the actual ordered product.
