This automatic boar semen rotator is designed for artificial insemination and breeding management, semen handling and reproductive management in pig farms, livestock farms.

## Features

- Product type: automatic boar semen rotator.
- Automatic operation helps reduce repetitive manual work.
- Purpose-built structure for routine use as a automatic boar semen rotator.
- Simple construction supports convenient installation, operation and maintenance.

## Advantages

- Improves day-to-day operating efficiency.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.
- Suitable for regular use in commercial farm environments.

## Description

Suitable for artificial insemination and breeding management, semen handling and reproductive management for pigs. Keep all product-contact parts clean and hygienic before use, and operate according to standard breeding or artificial-insemination procedures. Clean, disinfect or replace components as appropriate after use and store them in a clean, dry condition. Final dimensions, configuration and operating limits should be confirmed against the actual ordered product.
