

Feed Line Dosing Device

10KG wiring dispenser - 60-plug wire special (output of 15KG/h)

Product code	005
Specification code	0057
Primary category	Feeding and Drinking Systems
Secondary category	Automatic Feeding Systems

This feed-line additive doser is designed for routine use in livestock farms.

Features

- Capacity: 10 kg.
- Capacity: 10KG.
- Purpose-built structure for routine use as a feed-line additive doser.
- Simple construction supports convenient installation, operation and maintenance.

Advantages

- Improves day-to-day operating efficiency.
- More uniform delivery or distribution supports consistent farm management.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.

Description

Suitable for routine use in pig farms, poultry farms. Install the unit securely according to the feeding-system layout and avoid overloading or blockage. Remove residual feed and inspect moving or connecting parts regularly to maintain stable operation. Reference specifications: Dosing output: 15KG/h.
