

Feed Line Dosing Device

7.5 KG feeder - 90 gallon line special (output of 15 KG/h)

Product code	005
Specification code	00519
Primary category	Feeding and Drinking Systems
Secondary category	Automatic Feeding Systems

This feed-line additive doser is designed for routine livestock-farm operations.

Features

- Capacity: 7.5 kg.
- Purpose-built structure for routine use as a feed-line additive doser.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Suitable for routine use in commercial and large-scale livestock operations.
- More uniform delivery or distribution supports consistent farm management.

Description

Suitable for routine use in pig farms, poultry farms. Install the unit securely according to the feeding-system layout and avoid overloading or blockage. Remove residual feed and inspect moving or connecting parts regularly to maintain stable operation. Reference specifications: Dosing output: 15KG/h.
