This feed-line additive doser is designed for routine livestock-farm operations.

## Features

- Flow: 10KG.
- Purpose-built structure for routine use as a feed-line additive doser.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

## Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.

## Description

Suitable for routine use in pig farms, poultry farms. Install the unit securely according to the feeding-system layout and avoid overloading or blockage. Remove residual feed and inspect moving or connecting parts regularly to maintain stable operation. Reference specifications: Dosing output: 40KG/h.
