

Feed Line Dosing Device

7.5 KG material liner (output of 15 KG/h) accessories -- electrics

Product code	005
Specification code	00571
Primary category	Feeding and Drinking Systems
Secondary category	Automatic Feeding Systems

This feed-line additive doser is designed for routine livestock-farm operations. Its practical structure is intended for reliable day-to-day operation.

Features

- Purpose-built structure for routine use as a feed-line additive doser.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

Advantages

- Simple maintenance helps lower routine service requirements.
- Stable construction supports reliable routine operation.
- More uniform delivery or distribution supports consistent farm management.

Description

Suitable for routine livestock-farm operations. Install the unit securely according to the feeding-system layout and avoid overloading or blockage. Remove residual feed and inspect moving or connecting parts regularly to maintain stable operation. Reference specifications: Dimensions: 7.5KG.
