Plastic fraction incubator + stainless steel electrotherboard

Contenu en anglais

Code produit	159
Code spécification	1595
Catégorie principale	Matériel de contrôle environnemental
Sous-catégorie	Équipements de chauffage et d'isolation

This piglet heating plate is designed for young-animal warming and thermal management in pig farms, nursery houses. It uses stainless steel construction or components suited to routine farm use.

Caractéristiques

- Material: stainless steel.
- Corrosion-resistant construction is suited to humid livestock environments.
- Purpose-built structure for routine use as a piglet heating plate.
- Simple construction supports convenient installation, operation and maintenance.

Avantages

- Improves day-to-day operating efficiency.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.
- Suitable for regular use in commercial farm environments.

Description

Suitable for young-animal warming and thermal management in pig farms. Confirm that the power supply and environmental conditions match the selected model before use. Keep electrical parts dry, maintain adequate ventilation around the equipment, and inspect the unit regularly.
