

Placa de Eletron Porco

Plastic steel incubator + plastic electro-heatboard

Conteúdo em inglês

Código do produto	159
Código da especificação	1594
Categoria principal	Equipamentos de controle ambiental
Subcategoria	Equipamentos de aquecimento e isolamento

This piglet heating plate is designed for young-animal warming and thermal management in pig farms, nursery houses. It uses reinforced plastic-steel composite construction or components suited to routine farm use.

Características

- Material: reinforced plastic-steel composite.
- Purpose-built structure for routine use as a piglet heating plate.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

Vantagens

- Improves day-to-day operating efficiency.
- Suitable for routine use in commercial and large-scale livestock operations.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.

Descrição

Suitable for young-animal warming and thermal management in pig farms. Confirm that the power supply and environmental conditions match the selected model before use. Keep electrical parts dry, maintain adequate ventilation around the equipment, and inspect the unit regularly.
